

# YOUR ULTIMATE CRAFT BEER TRUCK

## 2 TRUCKS IN ONE

WEEKDAY DELIVERY WORKHORSE  
& WEEKEND PARTY WARRIOR

## 2 Trucks in 1

- Weekday Workhorse – The Isuzu NRR and the Supreme refrigerated body are the perfect combination for delivering your product, whether kegs, bottles or cans.
- Weekend Party Machine – Sure your Isuzu Ultimate Craft Beer Truck has eight taps and is easy to park in small spots, but it is also capable of keeping your beer at the ultimate serving temperature while providing plenty of shade for you and your customers.

## Strong and Hoppy

- The NRR's 19,500-lb. GVWR provides the strength needed for heavier payloads. Combined with the body, the payload is over 8,000 lbs.
- Isuzu's 5.2-litre turbocharged diesel engine generates 215-hp and 452-lb.-ft. of torque. The powerful and efficient design gives you plenty of hops to meet driver demand.

## Easy-to-Drive and No CDL Required

- The Isuzu N-Series provides flexibility with your staff; drivers are not required to have a CDL to operate.
- Maneuverability and driving visibility make Isuzu N-Series trucks easier to drive for less experienced truck drivers.
- These trucks navigate tight quarters, like alleys, sharp turns and smaller parking spaces for easier deliveries. This means less three-point turns and therefore less driving time compared to conventional cabs.

## Brewed for the Long Term with Less Expense

- Isuzu's low cost of ownership is a hallmark of the brand that is built on quality, durability and best-in-class fuel efficiency and warranty.
- NRR's 5.2-litre diesel engine has a 375,000-mile B-10 rating. In short, this means the powertrain is built to keep you on the road for more uptime, keeping your truck at the center of your profitability.

## A Body Built for the Workout and the Party

- The 16-ft. WABASH Kold-King Reefer insulated body (16'L x 91"H x 96"W) is cooled with a Thermo King 690R refrigeration unit with electric standby. This combination is built to run cool on the workday route and be electrically powered to keep over 40 kegs of beer icy cold.
- The Maxon TE-25L liftgate has a pallet-sized platform (48"x 80"), and with a 2,500-lb. capacity, it can lift your pallet and pallet jack for easier loading and unloading. That's some serious lifting!
- After last call, you need to quickly dismantle. With this truck, no fumbling with jockey boxes, coolers or clearing keg lines; just close the locking tap door, retract the awning and put away your supplies. No need to dump waste buckets. The 10-gallon Grey Water Tank collects all the residual beer collected in the trough to be disposed of back at the brewery.
- Quick, clean and most of all, easy to operate from the steering wheel to the tap handle!

## Quicker in the Front. Party in the Back.

- The Isuzu Ultimate Craft Beer Truck is more than just a truck. With powerful graphics, your brand will stand out among the clutter. The face of your brewery will be noticed faster, and the party in the back will be welcomed at your next event.

# DELIVER, POUR AND MORE...

# ISUZU

Isuzu vehicles are assembled from component parts manufactured by Isuzu Motors Limited, its affiliated companies, and by independent suppliers who manufacture such components to Isuzu's exacting standards for quality, performance and safety. Vehicle is shown with optional equipment. Some equipment is dealer installed. Visit your authorized Isuzu dealer for warranty and other details. Truck body represented herein is a product of WABASH. Thermo King is a registered trademark of Thermo King Corporation. Maxon is a registered trademark of Maxon Co. © 2022 Isuzu Commercial Truck of America, Inc.
